

HOW FACTORING WORKS?

Your Truck Company is taking a load from a broker.

Brokers don't pay the moment you deliver your load.

Factoring Company buys your Company's **unpaid invoice** for a small fee.

Instead of waiting 30, 60 or 90 days for payment, your Company receives its **advance money today.**

When a broker pays the invoice your Company receives the rest of the balance minus the small fee.

Your Company has enough **cash flow** to grow business operations.
